

US Medical Licensing Exam Review Program

Beginning Fall 2007, UC San Diego Extension will begin a review program for the United States Medical Licensing Exam. The only program of its kind locally, this USMLE prep program will arm international physicians and medical students with the essential skills needed to successfully complete and pass the exam.

UCSD Extension is the region's premier professional education network dedicated to providing healthcare organizations and individuals with cutting-edge learning and educational opportunities. The USMLE program provides hands-on and in-depth professional training from recognized physicians and instructors in the field of medicine. With affordable pricing and classroom-setting, students receive personalized instruction to meet their needs.

The Benefits of the USMLE Prep Program:

- Diagnostic test
- Comprehensive organ system review
- Comprehensive normal & abnormal process review
- Live lectures
- Small groups
- Highly interactive course
- Clinical scenarios review
- Test-taking & study strategies guide
- USMLE-type practice questions

To learn more about this review program, please call 858-964-1010 or email unexhealthcare@ucsd.edu.

"The [UCSD] USMLE prep program is the most comprehensive and cost-effective course of its kind available in this region."

Dr. Tanori
